## MONEY, BONDS AND STOCKS.

An Increase of Activity in New York, with a Quiet but Heavy Closing. NEW YORK, Oct. 5 .- Money on call was

easy at 2 25 per cent., the last loan being made at 4 per cent. bid, closing at 3 per cent bid. Prime mercantile paper, 42 37 per cent.

Sterling exchange was dull but firm at \$4.83} for sixty-day bills and \$4.88 for demand.

The total sales of stocks to-day were 245,207 shares, including the following: Delaware, Lackawanna & Western, 4,000; Erie, 5,150; Hocking Valley, 4,470; Missouri Pacific, 5,065; Northwestern, 5,410; New Jersey Central, 3,475; Northern Pacific preferred, 9,365; Oregon Transcontinental, 5,730; Reading, 25,980; Richmond & West Point, 13,125; St. Paul, 15,925; Union Pacific, 21,855; Western Union, 23,115. The stock market was more active to-day, and, while higher in the forenoon, became weak later, and the advances, with something in addition, were lost. There was very little feature to the list to-day, though the usually active stocks were quite n-glected, while the interest centered in several new speculative stocks which are now becoming prominent. The high rates for money prevalent in London are responsible for more selling by foreigners this morning, which gave the market a ragged appearance at the opening, but there was a moderate demand from domestic sources for stocks and the temper of the room was conservatively bullish and the entire list moved up. New England became the great feature of the day, and on a very large business advanced 2 per cent, the stories about buying by the New Haven interest for con-trol being revived. There was nothing really new in regard to the deal, however and the stock held its advance better than anvthing on the list when the decline came. Among the active list, Union Pacific and Western Union were the only stocks in which any particular strength was shown, and the revival of the report that the funding bill would probably be passed sided the former for a time. Among the low-priced shares, Chicago & Eastern Illinois and Hocking Valley were prominent for both strength and activity, the late purchase of a large block of the stock by an influential house stimulating speculation in the former. The great movement of the day, however, was a drop of ten points in Philadelphia tias, on reports from Philadelphia that an appouncement of the intention of the company to issue \$2,500,000 bonds had been made. A small portion of the loss was afterward made up, but the stock is 7 per cent lower this evening. Toward the latter portion of the afternoon there was a disposition shown to take profits, and a rumor of gold shipments was started, and prices ran off quite sharply. Declines at the opening were for from to to per cent. only, and the market developed strength immediately, while New England assumed the lead of the list and advanced rapidly on a large business. The rest of the list rose slowly on very moderate trading, which became less as the morning wore away. The best prices were reached about noon, when the sagging tendecy appeared, though little progress was made until toward 2 P. M., when the losses in Cotton Oil, St. Paul, and Richmond & West Point approached 1 per cent. The list did not rally, and the close was quiet, but neavy, at about the lowest prices for most if the list, and although the fluctuations were

CHICAGO, Oct. 5.-Speculative trading in wheat again revived somewhat to-day and a large business was transacted. The feeling was again unsettled and prices ruled considerably higher, with December selling up to last Wednesday's extreme figures; May passed the Wednesday's extreme figures; May passed the former outside figure by 1½c, and trading has shifted principally to that future. The opening was from ½c to le higher than yesterday's closing, with December immediately declining ½c, but May instantly started up. December turned on this and advanced 3½c above the inside figure. Then prices fluctuated for some time, finally ruling weaker, and the closing was 3½c higher for December and 4½c higher for May than the for December and 4tc higher for May than the closing figures last night. The advance was attributed to renewed buying, ereditto a new source, though the principal operator in the recent boom, no doubt, had still control of the market. An active speculative business was witnessed in corn in this market to-day, the volume of trading being heavy and a higher range of prices was established. The market opened at about the closing prices of yesterday, and was easy for a time, selling off ic, but soon became active and stronger, advancing with some reaction lic, tober ic. November te, and May toto higher than yesterday. The advance to-day was attributed mainly to the active demand from "shorts," the heavy purchases of a large local operator, and the unfavorble weather for the grading of new corn. There was evidently considerable of a "short" interest to the market over from yesterday, in anticipation of a lower market to-day, but the operations of the trader mentioned above turned the course of prices, and in covering prices were rapidly advanced. Oats gained strength from the improvement in wheat and corn, and futures show an advance of 10 %c, though reacting some from the outside. Mess pork was traded in more freely, the bulk being in January, which opened 2je higher, advanced 20c on better buying by outsiders, receded 25e and closed steady. The near deliveries were quiet and generally easier. In lard the near deliverles were decidedly unsettled, but trading not large. November fluctuated freely within a wide range, but other deliveries were steady. Short-rib sides were in active request; offerings limited, and the market stronger and higher; most of the advance was in January, early, but later weakend and all the advance disappeared.

among the retail merchants in the country towns there is a disposition to take the bright side, so promising is the corn crop and so evident is it that what hogs there are will be sold at high prices, which will go far to make up the decrease in number this fall. In prices to-day there were but few fluctuations. Coffees are firm at the recent advance. In commenting on this market the New York Bulletin says: "A pretty good assortment of Brazils is scattered about among the trade, the quality of the crop maintaining sufficiently high order to make the payment of premiums for the purpose of securing and controlling strict grading parcels no longer profitable. That, in conjunction with a reasonably full quantity, keeps a great many of the shrewd boyers in a more or less indifferent mood until actual wants arise to stimulate them, and owners of pretty good stock frequently have to do a great deal of waiting before they can find customers ready to negotiate upon their offering. The continued strength shown on foreign advices, however, and the upward turn on contracts, has had the effect to stimulate a little more trading in invoices, as some of the trade seem to gain confidence and sellers can secure a good opportunity to make a good turn on previous investment." Sugars are still a little off, but the belief prevails that within a few days they will rally again. The provision market is firm, lard still advancing in its tendency. The produce markets are fairly active. Receipts of poultry large; prices weak. Receipts of eggs light; prices upward in tendency. Apples and pota-toes coming in freely; prices barely steady. Seedsmen report trade brisk; timothy and clover seed both firm at quotations.

GRAIN. Not for many a day has the local market been so firm and steady in tone as to-day. Off-rings of wheat continue light, there being ne bids for October, November, or December wheat. Corn is improving on lighter receipts. Oats steady with fairly liberal offerings Track hide to

Corn Fodder. T. F. Hunt, in Chicago Farmer.

Every farmer who fails to cut up corn for fodder, misses a profitable opportunity. Expensive buildings, no special culture, nor particular variety of corn is essential. Corn ensilage may or may not be better than corn fodder. The fact remains that an important reason for the value of the silo to American farmers is that it preserves the Indian corn plant. In the nature of the case, corn ensilage cannot possess remark-able merit without corn fodder possessing considerable merit. The farmer who idly waits for the sile to solve the problem of economical feeding, or refuses to make use of it because !! is too expensive, reminds me of an old English story of a certain noble duke, who, on seeing a man plowing with four horses tandem, got off his horse, unhooked the two leaders, harnessed the other two abreast, and plowed a few furrows intending to show how easy it might be done with a pair. "Oh! its all very well for you that can afford it," said the man, "but those new fangled notions are two expensive for a poor

One Pledge Is Enough. Nebraska State Journal

General Harrison has made just one pledge since his nomination, and that is that if elected President of the United States he would conduct the administration on Republican principles will be a clean and sound administration. The people believe that, and it accounts for the avaanche of voters toward Republicanism.

Republican Alds. Springfield Republican.

The New York Sun and General Butler are still pulling together, but the plan of campaign has been changed. It is a queer scheme, this year, part in sight and the rest underground; but the Republican managers understand it. They circulate the newspapers, and call on the General for speeches.

Good Enough for Him.

Boarder (to landlady)-I am afraid, Mrs. Hendricks, that I shall have to leave you at the end of the week. Landlady-You can't leave, Mr. Dumley, until you have paid your back board. Boarder-Very well, then, I will stay on.
